

Frictionless, automated app delivery to Kubernetes

Automation

Auto-generate Docker images and Kube spec files

Multi-Cloud

Deployment, visibility & change tracking across clouds

Self-Service

Service-centric abstraction for self service delivery

Standardization

One delivery process across apps

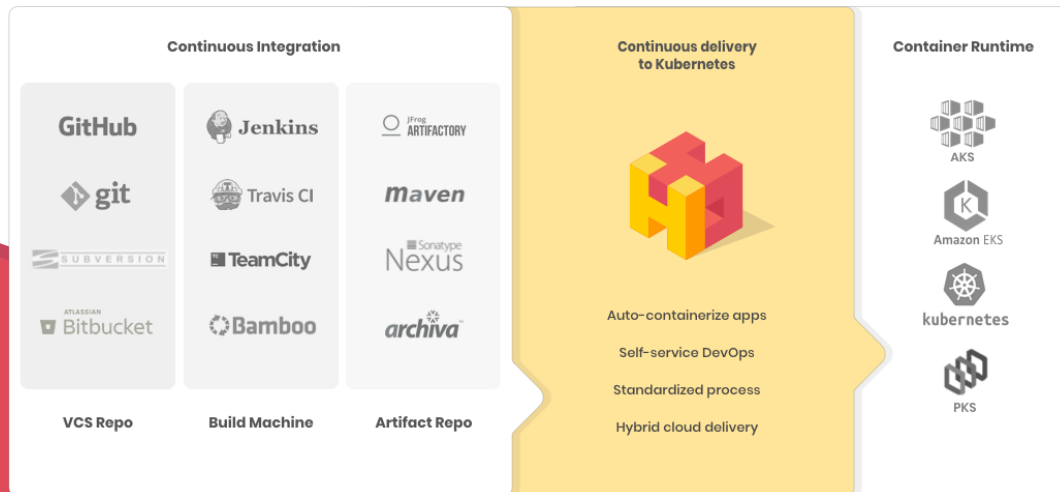

CI Integration

Plug-n-play with existing CI tools

Platform powered continuous delivery

Any application. Any cloud. One delivery platform.

SOLID EXPERIENCE

4+ years

production experience with containers and orchestrators

ENTERPRISE GRADE

10000+ containers

deployed for enterprise customers of a leading low-code aPaaS.

VENDOR NEUTRAL

Zero lock-in

Deploy to k8s clusters on-prem & across multiple cloud vendors
